INFORMATION DISCLOSURE STATEMENT

Pursuant to the provisions of 37 C.F.R. § 1.56, 1.97
and 1.98, Applicants are enclosing copies of several documents
which may be material to examination of the present
application. Each of the enclosed documents is listed on
enclosed Form PTO-1449.

More specifically, Applicants are submitting a copy
of a PCT Search Report (PCT/ISA/220 and 210), which was issued

by the European Patent Office (EPO) in a corresponding PCT application. This PCT Search Report was mailed on April 11, 2002. The PCT Search Report cites six documents, and a copy of each document is enclosed. It will be noted that enclosed PCT Publication No. WO-97-15801 and enclosed European Publication No. 0,942,640 respectively correspond directly to U.S. Patent Nos. 5,829,516 and 6,158,232, which are already of record in the present application.

Applicant does not have an English translation or English-language equivalent of enclosed German-language Document Nos. 37,39,585 and 198,60,415. However, the enclosed PCT Search Report identifies the relevance which was assigned to each of these documents by the European Patent Office (EPO) in its capacity as the International Searching Authority (ISA).

This Information Disclosure Statement is being submitted under 37 CFR §1.97(c), or in other words after receipt of a first Office Action on the merits, but prior to mailing of a further communication such as a final rejection or a notice of allowance. The PCT application designates other countries, and the search report was issued by the EPO earlier this month. In accord with 37 CFR §1.97(c)(1) and (e)(1), Applicants respectfully state that each item of information contained in this Information Disclosure Statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to filing of this Information Disclosure Statement.
